
COLLEGE OF HEALTH AND NATURAL SCIENCE

Public Health

Associate Professor: [Verna DeLauer](#)

Adjunct Instructors: Ashley Pettit, Patricia Brown

A minor is offered in Public Health.

The mission of the Public Health program is to impart in students a broad understanding of the factors that shape the health of populations and equip them with evaluative tools for improving the health of the community. The Public Health minor is designed to build the student's understanding of public health principles.

A minor in Public Health will allow you to pursue careers in Center for Disease Control and Prevention (CDC), US Food and Drug Administration (FDA), Environmental Protection Agency (EPA), hospitals, and Non-Governmental Agencies (NGOs). Students may also pursue graduate work in Epidemiology, Environmental Health, Toxicology, Community Health, Health Education, Biostatistics, and Healthcare Administration. To earn a minor in Public Health, you must successfully complete an 18-credit course of study.

Minor Requirements

The minor in Public Health requires successful completion of the following courses:

HCA201 Introduction to Healthcare Management

HCA315 Epidemiology

PUBH101 Introduction to Public Health and Health Services
