A Bachelor of Arts degree is offered in Music for traditional students.

A minor is offered in Music.

The mission of the Department of Music is to prepare students for careers in performance, the music industry or graduate work in music. We provide a strong foundation in performance studies, music theory, music history, and music technology for all students majoring or minoring in music. The Music Department also provides a creative opportunity for Franklin Pierce students not majoring in music through private instruction, ensembles, theory, and technology courses. Concerts, which offer the opportunity for a maximum number of students to experience public performance, are given each semester.

A cumulative grade point average of 2.00 must be maintained in required music courses in order to remain in the major.
